Sharing Project Platforms for Computer Science Students

*The purpose of this study is to seek the feedbacks and opinions of users on the system for the further improvement of the project. Please answer **ALL** the following questions.*

Please tick(✓) your answer according to the scale as the following:

1- strongly disagreed, 2- disagreed, 3- neither, 4- agreed, 5- strongly agreed

No	User Experience	1	2	3	4	5
1	The web platform provided is easy for students to share their projects to public.					
2	The permission mechanism functions for publication of projects is easy to use.					
3	It's easy to view student projects and comment on them.					
4	The system interfaces are simple and attractive.					
5	I experience almost no bugs on system.					

Please provide us your suggestion on improving this application or describe any weakness of this application. Thank you.
