Skills & Abilities

MANAGEMENT

· I was general manager who was in charged in My Hi-Tea Tech event for once in two weeks. The event's main purpose is to make students to expose to some programming languages or technical skills. I have to make sure every committee do their work effectively to make the team complete.

PROGRAMMING SKILLS

· Mastered in Java and PHP language during study life. The skills has been proven in developing the coursework as mentioned above.

COMMUNICATION

· I had participate quite few university activities such as UTeM SpringFest and Ficts UTeM. I worked with different races and students from different faculties. I need to communicate each other to carry out the event smoothly.

· For every subject, the students are required to present their final project in end of every semester. I learn and build my confident and soft skills through the presentations.

Experience

· Worked as a full-time salesman Maxis Dealer Setia City Mall for 3 motnhs in year 2014.
· Currently has no working experience in any computer science field, starting as a beginner.
